WHAT'S IN THIS MONTH'S ISSUE:

- Accepting New Patients
- Fluoride
- Hiring
- Featured Recipe

ACCEPTING NEW PATIENTS

You're in luck! We are always accepting new patients. We strive to give our best the best possible care and enjoy meeting all those new faces! If you are in need of dental care, please call our office and we will get you an appointment! We look forward to meeting you soon!

FLUORIDE TREATMENT

Fluoride is a natural mineral that can slow or stop cavities from forming. Bacteria in the mouth combine with sugars make acid that can harm the outer layer of the tooth (enamel). Fluoride protects teeth from damage and helps rebuild the enamel. Many communities have added fluoride to the tap water to help fight cavities. Children should drink plenty of water and brush with toothpaste that has fluoride in it.

Dental Assistant
Dental Hygiene Assistant
Dental Hygienist

If you are looking for a change and a great work place, go to our website listed at the bottom on this page and apply!

FEATURED RECIPE

Rainbow Fruit Kabobs with Fluffy Marshmallow Dip

Prep Time: 15 Minutes
Total Time: 15 Minutes

Equipment: Bamboo Skewers
www.sixsistersstuff.com

Ingredients:

Strawberries - Halved
Cantaloupe - Cut into bite sized pieces
Pineapple - Cut into bite sized pieces
Green Grapes
Blueberries
Red Grapes
8 oz. Whipped Cream Cheese
1 (7 oz.) Container Marshmallow Creme

Instructions:

Slide a piece of strawberry, cantaloupe, pineapple, green grape, two blueberries, and a red grape onto each skewer.
In a mixing bowl, beat together whipped cream cheese and marshmallow creme until smooth. Refrigerate until serving.
